Round Care Button - Chrome

1

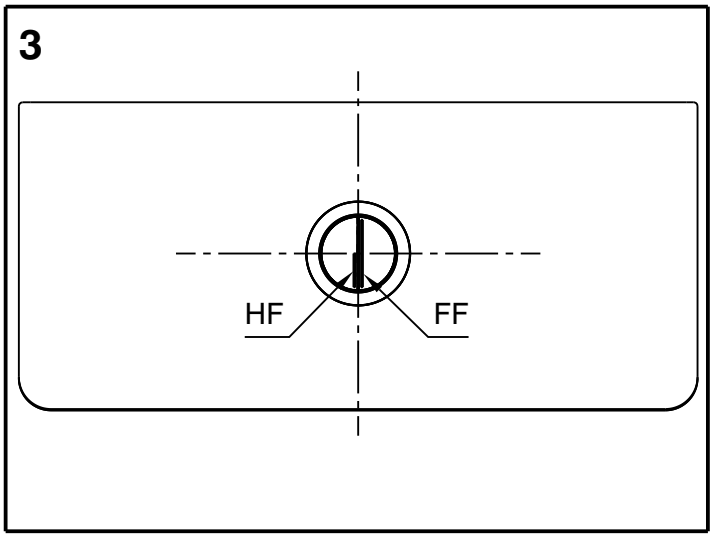

Fit the Button assembly into the cistern lid while keeping the half flush line to the left, as shown.

2

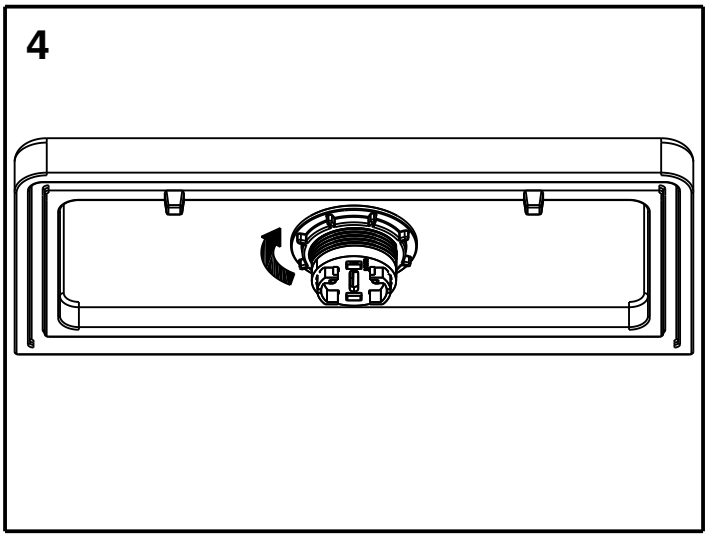

Screw the nut on the button assembly from underneath the lid.

3

Check the orientation of the button ensuring the HF/FF markings on button are perpendicular to the back wall.

4

Hand tighten the nut fully.

Note: Never use abrasive or harsh chemical cleaners on the button or lid. Wipe with warm soapy water to maintain decorative finish.
