“Welcome to Lukka Bathware
Redefining Luxury in Every Soak”

OUR TOILET

Our toilet range is built to first-grade quality standards, offering exceptional durability, performance, and design. Most models feature advanced tornado rimless flushing, delivering powerful, hygienic, and water-efficient performance.

In addition to our residential collection, we also supply commercial toilets, along with a full selection of toilet parts and accessories including Geberit and R&T cistern parts, in-wall cisterns, push buttons, seat covers, and more—everything you need for a complete, reliable toilet solution.

Rimless Tornado Flush

Rimless tornado flush combines powerful water flow with a smooth, rim-free bowl design, ensuring a cleaner, more hygienic toilet with every flush. It reduces splash, reaches every corner, and prevents dirt buildup—making cleaning easier and more effective.

Comfortable Height

The seat height conforms to the ergonomic design. Sitting fora long time will not make your legs numb, bringing a more comfortable use experience.

Commercial Toilet

Designed for high-traffic and accessible spaces, our commercial toilets offer reliable performance, easy maintenance, and models compliant with disability access and ambulant standards.

Self-Clean Glaze

An ultra-smooth, anti-bacterial ceramic coating that prevents dirt and stains from sticking. It keeps the surface cleaner for longer, reduces cleaning effort, and maintains a fresh, bright finish with every flush.

Soft Closing Seat Cover

Designed for comfort and quiet, our Soft Closing seat covers gently close without slamming. This smooth, controlled motion prevents noise, reduces wear, and adds a touch of everyday luxury to your bathroom experience.

First Grade Quality

All our toilets are made with first grade ceramic, ensuring superior durability, finish, and longevity. While cheaper second or third grade options exist elsewhere, we prioritise consistent quality that lasts.

Water Saving

Our toilets are engineered with dual-flush technology and efficient bowl design to minimise water usage without compromising performance.

Easy Detach

Our seat covers feature a convenient Easy Detach design, allowing you to remove the seat with just one click. This makes cleaning quicker, easier, and more thorough—ensuring better hygiene and long-term comfort.

Optional Flush Pipe

We offer P-Trap and a range of S-Trap sizes to accommodate various installation requirements. The S-Trap connects through the floor, while the P-Trap connects through the wall—providing greater flexibility during installation across different bathroom layouts.

OUR FACTORY

Complete Quality Control System

The company is after years of development to set up a number of experienced high-quality technical backbone of the management personnel.

We have strict product testing means and perfect after-sales service, to provide customers with excellent quality sanitary products.
