Cleaning & Care

For best results, clean mirrors with a combination of 30% methylated spirits to 70% water and a soft, non-abrasive cloth designed for use on glass surfaces.

We aim to ensure that specifications are correct at the time of publication. All measurements are shown in millimetres. For MDF cabinetry, please allow +/- 5 mm tolerance per 1000 mm for manufacturing variance in straightness. Always use measurements of actual product received for final specification as the technical drawing may contain differences. Due to printing limitations, physical colour may vary from the image shown. Fienza reserves the right to make modifications without prior notice.
