IMPORTANT SAFETY INSTRUCTIONS

Pre-Installation

PLANNING INSTALLATION

Compare all parts with the part listed in the package contents section if any part appears missing or damaged. Do not install and use this light. Contact customer service.

WARNING: RISK OF ELECTRICALSHOCK

- Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply.
- Turn off the power when you perform any maintenance.
- Please verify that the supply voltage is correct by comparing it with the luminaire label information.
- Make all electrical and grounded connections under the National Electrical Code, and any applicable local code requirement.

CAUTION: RISK OF INJURY

- Wear gloves and safety glasses when removing luminaire from the carton, installing, servicing or performing maintenance.
- Avoid direct eye exposure to the light source while it is on.
- Account for small parts and destroy packing material, as these may be hazardous to children.
- Mirrors are heavy. Get assistance lifting the unit. This installation is most straightforward when performed by two people.

WARNING: RISK OF BURN

- Allow fixture to cool before handling. Do not touch enclosure or light source.
- Follow all lamp manufacturer's warnings, recommendations and restrictions for driver type, burning position, mounting locations/methods, replacement, and recycling.

CAUTION: RISK OF FIRE

- Keep combustible and other materials that can burn away from luminaire and lamp/lens.

ELECTRIC CONNECTIONS

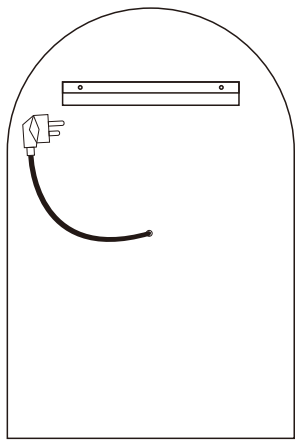

ALL WIRING SHOULD BE DONE BY A QUALIFIED LICENCED ELECTRICIAN

⚠ **A WARNING:** Shut off power before wring the mirror.

⚠ **A WARNING:** When used in bathrooms and in all other locations as required by the National Electrical Code, the electrical selector must be connected to a 220-240V (grounded dirt interrupter) protection circuit.

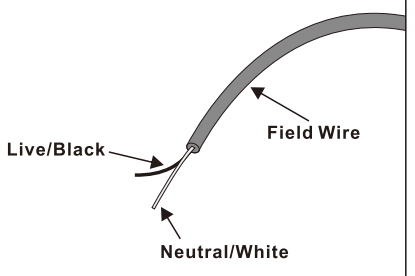

⚠ **A CAUTION:** Requires 220-240VAC 50/60Hz

The electric wire comes through the access hole in the back of the mirror.
